FIRST NATIONAL CONFERENCE ON SARCOIDOSIS DIAGNOSIS AND TREATMENT NEW GUIDELINES

**APRIL 30
MAY 1
2022**

Royal Hotel Carlton
via Montebello 8
Bologna

PROGRAM

PRESENTATION OF THE CONFERENCE

Filippo Martone, President of ACSI (Friends Against Sarcoidosis Italy), is very happy to outline the scientific project that informs the **FIRST NATIONAL CONGRESS ON THE DIAGNOSIS AND TREATMENT OF SARCOIDOSIS – New Guidelines.**

One of the main results that the association has achieved in recent months (to give health systems a useful tool to achieve that goal), has been to encourage and collaborate to draw up updated international guidelines (the previous date back to 20 years before), both for the diagnosis and for the treatment of sarcoidosis.

With this in mind, the Association decided to organize a conference inviting those researchers who, as the world's leading experts in this field, took part in the task forces that developed the guidelines. Not only pulmonologists, but also internists of international renown, as well as leading experts of our country will go deeper into the choices made and the spirit that animates them, allowing the conference participants to investigate and use them in their daily clinical practice. The conference will focus on the aspects concerning both the diagnostic and therapeutic moments of the disease involving the main organs and tissues (lungs, heart, skin, eyes, nervous system, etc.), as well as on a peculiar trait of the disease, the so-called chronic fatigue, for which treatment options will be discussed.

Will attend:

ANA CIGANOVIC-KATIC, Serbian Association of Sarcoidosis

RITA BARRIUSO, Associaci3n Nacional de Enfermos de Sarcoidosis

CHRIS KNOET, Sarcoïdose Belangenvereniging Nederland

KATJA SCHILLHORN, Sarkoïdose Selbsthilfe SH
